

Preface

The 2023 5th International Conference on Advanced Information Science and System (AISS 2023) sponsored by Chulalongkorn University, Thailand and The International Society for Applied Computing (ISAC), was successfully held on December 3, 2023 online via Tencent Meeting.

AISS 2023 is intended as an international forum to bring together academicians, scientists, engineers, and researchers working in the fields of Information Science and System to exchange views, share their expertise, experience and research results, and discuss the challenges and future directions in their specialized areas. Despite the influence of the pandemic, AISS 2023 provides a flexible platform for the delegates to exchange new ideas and application experiences, to establish business or research relations and to find global partners for future collaboration. Experts, scholars, and practitioners in the fields of Information Science and System have the opportunity to exchange new ideas and present state-of-the-art researches.

During the conference, we were pleased to have 4 renowned experts to give their excellent speeches: Prof. Tan Ying from Peking University, China; Assoc. Prof. Ata Jahangir Moshayedi from Jiangxi University, China; Prof. Kwang-Cheng Chen from University of South Florida, USA; Prof. Prabhas Chongstitvatana from Chulalongkorn University, Thailand. It was a great occasion for those who interested in the topics to interact with the experts to exchange views, share their expertise, experience and research results, discuss the challenges and future directions in their specialized areas, as well as exploring future collaboration possibilities.

AISS 2023 conference proceedings center on collecting the most up-to-date, comprehensive, and worldwide state-of-art knowledge and research in the fields of Information Science and System. All the accepted papers have been submitted for strict peer review by expert referees and selected based on originality, significance, and clarity for the conference. The proceedings consisting of 16 papers, which will be published by ITM Web of Conferences (eISSN: 2271-2097).

We would like to express our deepest gratitude to all of the experts and authors who supported AISS 2023 from the beginning to the end. The participation of each individual and institution was crucial for the success of this conference. We welcome more experts and scholars from all over the world to join this international event the next year.

The Organizing Committee of AISS 2023
